

WHAT TO DO WHEN I FEEL OVERWHELMED

Simple steps to help my body and mind feel calm again.

1

PAUSE

Stop. I can take a moment.

2

BREATHE

Take slow deep breaths in and out.

3

GO TO MY SAFE SPACE

I can find a quiet, calm place.

4

USE A CALMING TOOL

I can pick something that helps me feel better.

5

ASK FOR HELP

I can tell a grown-up:
I need help or
I need a break.

6

COME BACK WHEN READY

When my body feels calm,
I can try again.

Big feelings are okay. I can take it one step at a time.
